

Whole Life™ Nutrition for Large Breed Puppies

Large Breed Puppies Have Specialized Needs, Including the Need for:

- Calorie control and balanced nutrients
- Balanced mineral content
- Support for joint and skeletal development
- Immune system support
- Quality protein sources
- Nutrients to support heart and digestive health

Here at TLC Pet Food, we understand the special dietary needs of growing large breed puppies.

Traditional 'puppy foods' are higher in fat, and when fed to growing large breed puppies, can lead to rapid weight gain and growth, which can ultimately exacerbate joint and skeletal issues like hip dysplasia, or "knuckling", which can be common in larger breeds.

TLC Whole Life Dog Food is formulated to meet the nutritional levels established by the AAFCO for 'All Life Stages', including the growth of large-size puppies (70 lbs or more as an adult).

From growth to maintenance, every stage of your large-breed puppy's life is covered, promoting optimal health and vitality.

TLC Whole Life™ Dog Food (All Life Stages) has Calorie Control and Balanced Nutrients

The Metabolizable Energy (ME) for TLC Whole Life Dog Food is 440 kcal/cup.

TLC Whole Life Dog Food (All Life Stages) includes a balance of 26% protein and 16% fat, and a protein-to-fat ratio of 1.6:1 (Dry Matter Basis or DMB), supporting growth and energy needs without an excess of calories.

TLC Whole Life™ Dog Food (All Life Stages) has Balanced Mineral Content

The calcium-to-phosphorus ratio for TLC Whole Life Dog Food (All Life Stages) is 1.4:1 (Ca 1.4% DMB and Ph 1% DMB).

TLC Whole Life Dog Food is formulated to provide a balanced calcium-to-phosphorus ratio for balanced and controlled skeletal growth and development in large and giant breed puppies. This is crucial to ensure balanced and controlled bone development, helping to prevent skeletal issues, including orthopedic diseases like hip dysplasia.

TLC Whole Life™ Dog Food (All Life Stages) has Support for Joint and Skeletal Development

TLC Whole Life Dog Food (All Life Stages) includes naturally occurring and added glucosamine (500 ppm) and chondroitin (200 ppm).

TLC's All Life Stages formula includes green-lipped mussels (a natural source of glucosamine and chondroitin), salmon oil, and DHA to support healthy hips, joints, and brain development.

TLC Whole Life™ Dog Food (All Life Stages) has Quality Protein Sources

TLC Whole Life Dog Food (All Life Stages) is made using superior-quality, animal-based protein sources.

All TLC Pet Food, including our All Life Stages formula, use superior-quality animal-based protein sources including lamb meal, chicken meal, fresh chicken, and salmon meal. This varied protein supply offers a variety of amino acids supporting muscle development and provides a diverse array of nutrients crucial for overall health.

TLC Whole Life™ Dog Food (All Life Stages) has Nutrients to Support Heart and Digestive Health

The TLC Whole Life Dog Food (All Life Stages) includes key nutrients to support cardiovascular and digestive systems.

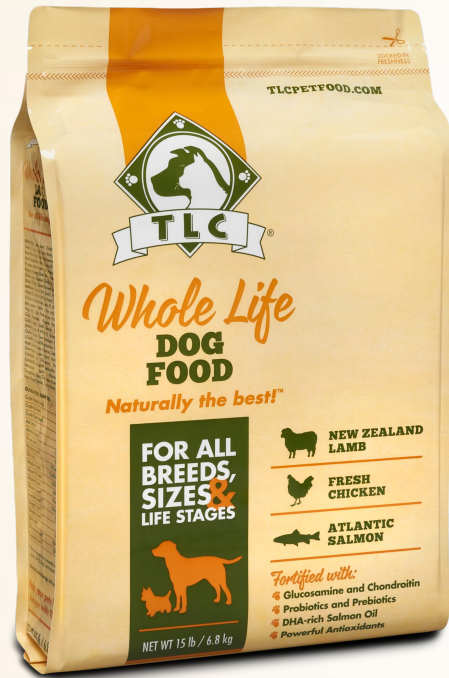

Our formula contains Omega-3 and Omega-6 fatty acids to support cardiovascular health, crucial for rapidly growing large breed puppies. Rich in fiber, prebiotics and probiotics, helping to enhance digestion and nutrient absorption. TLC Whole Life™ Dog Food is over 86% digestible as confirmed by independent 3rd-party laboratories.

TLC Whole Life™ Dog Food

- Contains a blend of highly concentrated animal proteins, including **lamb, chicken, and salmon**
- Made with **ancient whole grains**
- Fortified with glucosamine and chondroitin from **green-lipped mussels**
- Includes **pre and probiotics** for optimal digestion
- Loaded with **vitamins and minerals** from trusted suppliers
- Formulated with **Omega-3** and **Omega-6** for cognitive, joint, skin, and immune health

Guaranteed Analysis & Dry Matter Basis Calculation

TLC Whole Life Dog Food is formulated to meet the nutritional levels established by the AAFCO Dog Food Nutrient Profiles for All Life Stages including growth of large-size dogs (70 lbs or more as an adult).

Nutrient	Guaranteed Analysis*	Dry Matter Basis (DMB)**
Crude Protein (min)	26%	31.11%
Crude Fat (min)	16%	18.88%
Crude Fiber (max)	4.00%	6.11%
Ash (max)	8.00%	9.66%
Moisture (max)	10%	-
Calcium (min)	1.30%	1.66%
Phosphorus (min)	0.80%	1.05%
Zinc (min)	170 mg/kg	-
Vitamin A (min)	12,000 IU/kg	-
Vitamin D3 (min)	1,300 IU/kg	-
Vitamin E (min)	160 IU/kg	-
Vitamin C (min)	110 mg/kg	-
L-carnitine (min)	100 mg/kg	-
Omega-3 (min)	0.25%	0.63%
Omega-6 (min)	2.50%	2.77%
DHA (min)	0.06%	0.06%
Glucosamine (min)	500 ppm	555.56 ppm
Chondroitin (min)	200 ppm	222.22 ppm

Metabolizable Energy: 440 kcal/cup

* *Guaranteed Analysis refers to the minimum or maximum nutrient level in the formula. Where applicable these levels meet AAFCO nutrient profiles for growth.*

** *Dry Matter Basis (DMB) refers to the nutrient level in the formula with moisture removed.*

Quality Ingredients

Lamb Meal, Chicken Meal, Oatmeal, Fresh Chicken, Whole Grain Barley, Whole Brown Rice, Millet, Chicken Fat (Preserved With Mixed Tocopherols, a Natural Source of Vitamin E), Salmon Meal (Preserved with Vitamin E and Rosemary Extract), Green Peas, Whole Eggs, Chicken Liver, Potassium Chloride, Salmon Oil (Source of DHA), Quinoa, Flaxseed, Lecithin, DL Methionine, Chicory Root (Inulin), Vitamin A, Vitamin D3, Vitamin E, Niacin, Vitamin C, Inositol, D-Calcium Pantothenate, Vitamin B1, Riboflavin, Beta-Carotene, Vitamin B6, Folic Acid, Biotin, Vitamin B12, Zinc Proteinate, Iron Proteinate, Copper Proteinate, Manganese Proteinate, Calcium Iodate, Selenium Yeast, Tomato (Natural Source of Vitamin K), Glucosamine, Choline Chloride, Yucca Schidigera Extract, L-carnitine, Mannan-Oligosaccharides, Carrots, Apples, Sweet Potatoes, Blueberries, Cranberries, Green-Lipped Mussels (Natural Source of Chondroitin And Glucosamine), Probiotics (Lactobacillus Acidophilus, Lactobacillus Casei, Enterococcus Faecium, Bifidobacterium Thermophilum), Thyme, Cassia, Anise, Horseradish, Juniper, Ginger, Yarrow, Rosemary Extract.
